

Centrisep® Particle Separator STC

THE CENTRISEP® PARTICLE SEPARATOR STC (SH4305NM) provides continuous engine protection in even the harshest environmental conditions. Featuring the “fit and forget” Engine Advanced Protection System (EAPS), Centrisep®’s unique “swirltube” technology efficiently increases separation to 96% resulting in 5X greater compressor life than with the standard filtration. Maintenance costs are also reduced since there are no filters to clean and replace.

BENEFITS

- “Fit and Forget” EAPS technology eliminates filters and lowers maintenance costs
- Provides continuous engine protection even in brownout and other sever conditions
- Engine protection is increased and maintenance costs are further reduced when the T53 Engine Wash Kit is installed with the Centrisep® Particle Separator

HILLSBORO AVIATION - THE LEADER IN BELL 205/UH-1 UPGRADES

With the acquisition of Heli-Trade, the renowned expert in after-market improvements for the Bell 205/UH-1 series helicopter, Hillsboro Aviation offers a complete line of innovative upgrades for this venerable workhorse. Our STC upgrades dramatically improve performance, reliability and safety while also reducing operational costs.

BELL 205/UH-1 STCS AVAILABLE

- 212 Rotor System
- T53-17A/B Engine
- Nine Passenger
- T53 Engine Wash Kit
- Centrisep® Particle Separator
- Vertical Reference Door
- Left Hand Pilot-in-Command
- Howell EGT/MGT Indicator/Monitor System
- Manual Start Fuel Switch
- Dual Electric Boost Pump
