

Left Hand Pilot-in-Command STC

THE LEFT HAND PILOT-IN-COMMAND STC (SR01226SE) allows operations as a pilot-in-command (PIC) from the left or right crew seat, improving mission flexibility and response time since transport requirements can be accommodated without further crew restrictions. The STC also features an ergonomically-friendly, compact replacement collective head.

Note: Prior installation of the Bell Dual Control kit, Bell Co-Pilot Instrument kit and an approved emergency cargo release kit is required.

BENEFITS

- Pilot-in-command operations from either the left or right seat
- Greater mission flexibility – easy and rapid response to crew, passenger and cargo requirements
- Compact, comfortable and easy-to-operate collective head

HILLSBORO AVIATION - THE LEADER IN BELL 205/UH-1 UPGRADES
