

T53 Engine Wash Kit STC

THE T53 ENGINE WASH KIT STC (SH5797NM) provides an effective and economical system for removing oil, dust and other residue that accumulates in the engine. Unless residue is removed on a frequent basis, engine performance and service life will be reduced.

This STC features specifically-designed spray nozzles precisely placed in the engine's bell mouth assembly to ensure consistent and thorough cleaning. The cleaning process is accomplished while the engine is running during the cool down period, conserving engine cycles. Also included in the fully-contained kit are separate wash and rinse canisters, hoses, quick-connect fittings and hardware.

BENEFITS

- Increased engine performance and service life when used on a regular basis
- Cleaning occurs with running engine, reducing unnecessary and costly engine cycles
- Fully-contained kit can be used anywhere – no special tools required
- Environmentally sensitive – cleaning fluid is combusted by engine
- Installs in as few as 15 labor hours

HILLSBORO AVIATION - THE LEADER IN BELL 205/UH-1 UPGRADES

With the acquisition of Heli-Trade, the renowned expert in after-market improvements for the Bell 205/UH-1 series helicopter, Hillsboro Aviation offers a complete line of innovative upgrades for this venerable workhorse. Our STC upgrades dramatically improve performance, reliability and safety while also reducing operational costs.

BELL 205/UH-1 STCS AVAILABLE

- 212 Rotor System
- T53-17A/B Engine
- Nine Passenger
- T53 Engine Wash Kit
- Centrisep® Particle Separator
- Vertical Reference Door
- Left Hand Pilot-in-Command
- Howell EGT/MGT Indicator/Monitor System
- Manual Start Fuel Switch
- Dual Electric Boost Pump
