

Vertical Reference Door STC

THE VERTICAL REFERENCE DOOR STC (SH2691NM) was developed using real-world input from pilots resulting in a superior long-line referencing system. The vertical reference door provides the pilot with information to safely monitor the aircraft and engine systems while also maintaining an unobstructed view of the sling load. A coating on the transparency protects sensitive instruments from the sun's damaging UV rays.

BENEFITS

- Enables the pilot to safely fly the helicopter while also maintaining an unobstructed view of the sling load
- Important instruments are located in the door panel for quick and easy line-of-sight referencing during flight
- Added UV coating on the transparency protects sensitive instruments from damage caused by the sun

HILLSBORO AVIATION - THE LEADER IN BELL 205/UH-1 UPGRADES

With the acquisition of Heli-Trade, the renowned expert in after-market improvements for the Bell 205/UH-1 series helicopter, Hillsboro Aviation offers a complete line of innovative upgrades for this venerable workhorse. Our STC upgrades dramatically improve performance, reliability and safety while also reducing operational costs.

BELL 205/UH-1 STCS AVAILABLE

- 212 Rotor System
- T53-17A/B Engine
- Nine Passenger
- T53 Engine Wash Kit
- Centrisep® Particle Separator
- Vertical Reference Door
- Left Hand Pilot-in-Command
- Howell EGT/MGT Indicator/Monitor System
- Manual Start Fuel Switch
- Dual Electric Boost Pump
